

# Global Infrastructure Investor Association

*Promoting Private Investment in Infrastructure*

# About GIIA

GIIA is the membership body for the world's leading investors in infrastructure and advisors to the sector.

Our members have in the region of USD\$1.3 trillion of infrastructure assets under management, with more than 2,000 assets across 70 countries.

# Our Members

GIIA offers a range of membership categories for both large and small investors, LPs, corporates and for those companies who advise the sector.

Our members are investing today to provide the smart, sustainable and innovative infrastructure needed for our communities and economies to thrive. The investor member base of GIIA is diverse and ranges from fund managers, pension funds, insurers and sovereign wealth funds.

# Our Aims & Vision

- Make the case for private investment in infrastructure across the World through evidence based advocacy.
- Promote improved understanding and dialogue between governments and the private sector to create the right environment for investment.
- Foster a community of infrastructure professionals to collectively shape the future of the sector.

*“Private investment becomes a recognised, integral part of infrastructure planning, development and management by governments in multiple geographies”*

# What We Do

GIIA's work falls into three distinct areas:

**Advocacy**

**Member  
Engagement  
& Events**

**Market  
Insights**

# Advocacy

## Government Engagement

GIIA engages directly with Government Ministers and officials and convenes roundtable meetings between members and key decision makers around the globe

## Policy Working Groups

Regional policy working groups covering Europe, UK, North America and Australia meet regularly to shape policy recommendations, submissions and responses to government

## Stakeholder Engagement

GIIA maintains a network of key stakeholder associations and partnerships around the world with whom we collaborate on areas of shared importance

# Member Engagement & Events

## Events & Webinars

An annual programme of live and virtual events are available to members free of charge on a variety of topics with a range of engaging and informative speakers and panelists.

## Emerging Leaders Network

Our Emerging Leaders in Infrastructure Investment group has grown to more than 300 young professionals working at member companies who are able to join a series of events and build their professional networks

## Member Discounts

Members of GIIA are able to enjoy discounts on ticket prices for many of the largest conferences around the world, as well as discounted learning opportunities.

# Market Insights

## Reports & Publications

GIIA produces reports and publications on relevant topics facing the sector. Recent examples have included issues such as Net Zero, Climate and Technology Risks for Infrastructure, the Future of Regulation, Hydrogen and our Global Asset Database

## Share Best Practice

GIIA convenes forums for experts within our membership working on Tax, ESG & Sustainability as well as Communications & Public Affairs

## Infrastructure Pulse Survey

Members are invited to participate in the Infrastructure Pulse Survey which provides a regular temperature check of investor sentiment in both the European and Americas markets

# GIIA Events

GIIA hosts a regular programme of live (travel restrictions permitting) and virtual events, covering a variety of topics, such as; Sustainable Investments in Europe, Future of UK Regulation, Bridging the American Infrastructure Gap, as well as Net Zero, Climate Resilience and Digital Infrastructure.

Typically these events include but are not limited to;

- Networking Receptions
- Conferences
- Briefings and Roundtables
- Webinars

In total, more than 1800 people registered for GIIA events in 2021.  
See the GIIA Events page on our website for up to date listings.

# Join Our Global Community

We are building a global network of leading infrastructure investors, and trusted advisors, to promote the role of private investment in delivering the smarter, greener and more efficient infrastructure needed by future generations.
